25X1A	fighter regiment and the superior division headquarters. It was previously stated that there had been flying at the field on every day from 2 through 9 August except for 7 August. However, this report clarifies the previous report and now states that there was no flying on 5, 7 or 9 August.
25X1A ² 。	Comment. The AAA unit stationed at the field had probably moved to the Justerbog AAA range, which is used for firing practices with life ammunition by light AAA batteries.
25X1A 3.	Comment. The radar set of type kniferest is located at the northern edge of the airfield in line with the half-mid point of runway.
